

# TENAX AR 1545

## DESCRIPTION

Tenax AR range of grids and tapes is specifically developed to provide protection for anti-corrosive pipe coatings during handling, laying and operation.

## BENEFITS

- Absorbs impact during laying and back-filling with uneven materials
- Substitutes for earth and sand beds making them unnecessary
- Permits the expansion and contraction of the pipeline due to thermal action and ground settlement which reduces stress on the pipeline posts or existing fences

## CHARACTERISTICS

- Manufactured using a special polymer extrusion process
- Thickness and mesh sizes to suit all occasions
- Resistant to chemicals normally found in the earth
- High level of resistance to compression traction and tearing
