

TENAX

Windguard

DESCRIPTION

It filters and mitigates the wind intensity, protecting vegetable gardens and balconies. The unique structure of this net, that combines two different rectangular meshes, creates a unique pattern.

BENEFITS

- Weather-resistant
- Lightweight and easy to cut to size
- Durable and reusable
- UV stabilized for longer life

USES

- Anywhere to provide wind protection
- Ideal on balconies and terraces to screen from view
- Ideal in gardens to protect plants and cultivations from wind and sunlight
