

Tubular Nets for Cylinder Protections

- Guarantees protection of the painted or treated parts
- High resistance against oil and grease aggression
- Less painting cycles
- Elimination of the problems caused by rubbing or condensation
- Wide range of diameters all available in the warehouse
- Versatility of use
- Customization
- Fully recyclable

TENAX manufactures tubular nets for protection of cylinders and large items during the storage and transport. Using “environmentally friendly” paints could cause shorter duration of painting cycles such that it is necessary to increase protection of the surfaces against shocks and chating. Tenax tubular nets: strong and elastic, simple to fit, guarantee of durability on cylinders, extinguishers and tanks.

PRODUCT	DIAMETER (inches)	ROLL LENGTH (inches)	COLOR
TP 200	3.9 - 7.9	164	Dark Green
TP 220	4.9 - 9.8	164	Neutral
TP 230	5.9 - 11.8	492	Blue
PS 950	7.5 - 9.8	98	Neutral
PS 1150	9.8 - 15.7	98	Neutral
PS 1200	13.8 - 21.7	98	Neutral
