

Tubular Nets for Handling and Protection

- Guaranteed protection of the painted or treated parts
- High resistance against oil and grease aggression
- Elimination of the problems caused by rubbing or condensation
- Wide range of sizes, diameters, thicknesses and colors, available upon request
- Reasonable costs
- Universal and versatile packaging
- Fully recyclable
- Reusable

TENAX TP nets are polyethylene tubular nets recommended for the protection of semi-finished mechanical parts with high finishing and precision, items with painted, galvanized, electro-polished or zinc-plated surfaces. We have specifically designed two types:

- **ELASTIC:** elastic nets that adapt perfectly to the most irregular forms.
- **PROTECTIVE:** a wide range of protective nets, against any risk.

The fact that the nets can be used several times reduces the production of rejects and decreases costs.

Tubular Nets for Handling and Protection

Elastic

Product	Min/Max (mm)	Roll Length (m)	Winding	Color
TP 20/15	20-50	200	Reel	Clear
TP 45	35-80	100	Reel	Blue
TP 95	50-100	100	Wheel	Pink
TP 140	70-160	100	Wheel	Brown
TP 210	120-250	50	Wheel	Black

Protective

Product	Min/Max (mm)	Roll Length (m)	Winding	Color
TP 5	7-15	200	Reel	Clear
TP 10	10-20	200	Reel	Violet
TP 15	15-30	200	Reel	Light Blue
TP 20	25-50	200	Reel	Blue
TP 50	35-70	100	Winding	Yellow
TP 75	50-75	100	Winding	Brown
TP 100	50-100	100	Winding	Red
TP 150	75-150	50	Winding	Orange
TP 180	125-200	50	Winding	Light Green
TP 200	100-200	50	Winding	Dark Green
TP 220	125-250	50	Winding	Clear
TP 230	150-300	50	Winding	Blue

Welcome to the Possibilities. Welcome to Tenax.
