Keep in touch with the technical team and discover the great opportunities that TENAX offers for customized packaging.

Experience and extensive know-how meet every the creativity of our customers, from small packers to large retail organizations.

Our range of products in polyethylene or polypropylene covers all needs in the development of light-weight, environmentally-friendly packaging.

On demand, we set up prototypes and manufacture products by biodegradable polymers certified according to EN 13432.

The net is a versatile tool for the creation of packaging multi-shaped objects such as beach toys, balls, promotional items and rubber or plastic accessories.

Welcome to the Possibilities. Welcome to Tenax.
